PSIC Testimonial

Our district was one of the original 16 districts to begin our cooperative. I cannot say enough about how it has not only helped our district financially, but has provided us stable renewals over the last thirteen years. Prairie State continues to be a program leader, always looking for and implementing enhanced coverages for our group of school districts statewide. The quick response and handling of claims by our TPA is second to none. These are just a few reasons why my district, with 100% backing from our local board, continues to be a part of this cooperative year after year.

Bob McDermott
Chairman - PSIC
